Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1, 2, 4-17, and 19-21 are rejected under 35 U.S.C. 102(e) as being anticipated by Radha et al (6,292,512) for the same reasons as set forth in Section 5 of the previous office action, dated 7/27/04.

### ***Response to Arguments***

2. Applicant's arguments filed 5/23/05 have been fully considered but they are not persuasive. Applicant asserts on pages 7 and 8 of the Remarks that Radha et al fails to disclose modulation rates. Although Radha et al never used the word "modulation" to describe the variable bandwidth network 43, one of ordinary skill in the art would have recognized that a modulation rate merely refers to the rate at which data is transmitted through network 43. Previous office actions have repeatedly cited Figure 6 of Radha et al illustrating the concept of such variable "modulation" rates within network 43.

However, applicant continues to request explicit teachings from the disclosure of Radha et al. Therefore, it is submitted that, column 6, lines 28-37 and column 8, lines 15-47 of Radha et al explicitly discloses the concept of such common variable transmission rates

for different priority encoded data. That is, as recognized by the applicant, some data in network 43 may be transmitted at a rate of X bits, while other may be transmitted at a rate of 2X bits.

### ***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
